Professional Experience

Pioneer Infra Consultants Pvt. Ltd.

Nov. 2025 – Present

Application Developer and System Engineer

Jaipur, Rajasthan

- **Developed and maintained** user-facing web interfaces for infrastructure applications using **HTML, CSS, JavaScript and Bootstrap**.
- **Developed and updated** reusable UI components including headers, footers, forms and page sections to improve consistency across the application.
- **Improved** usability and performance of internal web applications by implementing pagination and asynchronous **API** calls.
- **Improved** user experience by implementing loading states and handling asynchronous operations across web pages.
- **Worked** with the support team to understand requirements and improve existing web application functionality.
- **Applied** responsive design principles to ensure consistent and usable interfaces across desktop, tablet and mobile devices.

Gravita India Ltd.

Nov. 2023 – Jul. 2025

Application Developer

Jaipur, Rajasthan

- **Developed** an internal asset management application for tracking and managing the distribution of IT equipment across the organization.
- **Automated** business workflows by implementing HTML-based forms and improving existing application processes.
- **Developed** dashboards and downloadable reports to present business data and financial information to stakeholders.
- **Managed** user roles and authorization workflows to support role-based access control across business applications.
- **Developed and maintained** web forms for client-facing applications based on business requirements.

Airtel

Jul. 2023 – Sep. 2023

Data Analyst

Jaipur, Rajasthan

- **Cleaned, analyzed and transformed** data using Advanced Excel to support data analysis activities.
- **Developed** SQL-based reports to analyze and present business data.

Projects

GrandStay Hotel Website – React.js, Bootstrap, CSS

GitHub

- **Built** a responsive hotel booking web application using **React.js, Bootstrap and CSS** with reusable components for room, gallery and booking interfaces.
- **Implemented** client-side **login, signup and logout** flows with **LocalStorage**-based session persistence.
- **Integrated APIs** to fetch and display dynamic hotel/room data and handled loading and error states during API requests.
- **Implemented** client-side routing using React Router and handled loading states for a smoother user experience.
- **Built** responsive layouts using Bootstrap and CSS for consistent experiences across desktop and mobile devices.

Portfolio Website – HTML, CSS, Bootstrap, JavaScript

GitHub

- **Built and deployed** a responsive personal portfolio website using **HTML, CSS, Bootstrap and JavaScript** to showcase projects, skills and professional experience.
- **Implemented** client-side form validation using **JavaScript and responsive layouts** for desktop, tablet and mobile devices.
